

Attention All Residents

Waste Management will not pick up trash, boxes or any other items left outside the dumpster.

If the dumpster is full it is the individual resident's responsibility to dispose of their trash or to hold it in their unit until the dumpster is emptied.

All boxes should be broken down flat before putting in the dumpster and should be put in the recycle bins if appropriate.

Large items such as mattresses, furniture, appliances, etc must be disposed of by the individual residents. This includes Christmas Trees.

Large items may be picked up by "special pickup" by waste management. This must be done through a board member and charges may napply.

Please Do Recycle.....However!!!!!!!

Only recyclable products are to be put in the recycle bins. If trash/garbage is put in these receptacles Waste Management will not empty them until one of your neighbors removes it.

**Your cooperation will be greatly appreciated
The Board**
